

May is Neurofibromatosis Awareness Month

LET'S MAKE NF SHINE BLUE & GREEN AT HOME

Make NF Shine is an initiative that brings NF out of the shadows and into the community as part of NF Awareness Month.

We would like to actively encourage our community to use their own homes to make NF shine during May. In the era of social distancing, you can also bring this effort to your neighbourhood by lighting up your home in blue and green!

What you can do

- Replace your outdoor lights with blue and green bulbs from Bunnings for less than \$7
- Decorating your driveway or sidewalk with chalk pictures, messages, or NF facts
- Add a car decal to your back window - or even putting up in your front window at home!
- Make lawn signs or window displays
