

WHY NOT GO

# BLUE & GREEN

ON MAY 17?

in support of kids and families impacted by Neurofibromatosis (NF) in Australia and the Children's Tumour Foundation.

## LET'S BRING NF OUT OF THE SHADOWS

May is NF Awareness Month.

Neurofibromatosis (NF) is a genetic condition that causes tumours to grow on nerves in the body, including the brain and spine. There is no cure - but there is hope!

**WHY DRESS IN BLUE AND GREEN?** To help the Children's Tumour Foundation start a national conversation about NF.

Children with NF and other genetic conditions often feel isolated, misunderstood and alone. But talking openly about NF can be the first step in building understanding and acceptance among peers.

We want you to help us celebrate diversity (including genetic diversity) by bringing NF out of the shadows and demonstrating that our differences don't have to divide us. It can bring us closer.

A **gold coin donation** from every student can add up to A LOT of support for our NF Heroes.

## IT'S SO EASY TO GET INVOLVED

May 17 is NF Awareness Day, but we will be celebrating our NF Heroes every day in May, so you can pick a date that suits your school.

Head to [ctf.org.au/go-blue-and-green](https://ctf.org.au/go-blue-and-green) to register your interest.

You can pre-order merchandise to sell or posters to hang up around the school directly from our store [ctf.org.au/store](https://ctf.org.au/store).

If you want to host an assembly on the day, we can provide you with videos and presentations too!
